

Rental car strategies

Rent a car or not?

It depend from your travel plan.....

Here you can read some basic tips

If you need to rent a car before or after our program for the rest of your vacation, I suggest that you rent from ["LA MAGGIORE"](#).

1. La Maggiore is the best rental car company in Italy and has an office in Bolzano-old town (easy to check out/in)
2. If you are used to automatic cars, please DON'T RENT A MANUAL CAR...
3. Driving in the confusing and congested Italian traffic with a manual transmission car can be a terrible experience for you (especially American drivers). Don't forget this point!
4. LA MAGGIORE has some mid-level cars with automatic transmissions, but it is best to reserve your car 1-2 months before your trip.

With our programs, you won't need a car. You can save some money because all transportation in the Dolomites during your tour is included in our price. (with my new 7 places FIAT Doblò)

My car before the maquillaje..... and after! No bad!

The easier way to arrive in Bolzano on the Dolomites is the train.

The Italian Governative railways have many connection from the main cities (with airports) with Bolzano.

Bolzano is along the "Brenner pass railway", the most old and important railway line of centre Europe that connect the north with the south parts of the continent.

Every day are many train that go on the both direction and that stop in Bolzano.

Reserve the tickets is easy:

Open the official webpage of: www.trenitalia.com

Write in the departure field: "the name of the railway station of the city of your airport".

Example: MILANO CENTRALE or VERONA PORTA NUOVA or VENEZIA MESTRE or

Write in the arrival field: " the name of the railway station of Bolzano: BOLZANO BOZEN

Write your preferred departure time... and choose the best combination of trains. Then when you are at the train write me a text message or email to confirm your arrival time in Bolzano.

It's all!
